## Questions and Answers

**1. Our Particum (PCM) universe and our parallel PartikA (PKA) universe are transposed or intermeshed, and so exist in the same space. How is this possible?**

- They run on different frequency patterns and different patterns of particle pulsation. You could think of it as tuning in to different radio or TV channels.

**2. What are the dimensional correspondences between the Particum and PartikA 15-Dimensional Matrices?**

- Particum dimension 1 and PartikA dimension 15 flow through each other. Particum dimension 2 and PartikA dimension 14 flow through each other. Particum dimension 3 and PartikA dimension 13 flow through each other, and so forth. Also, they both meet at the Metagalactic Core of dimension 8.

**3. There is a flow of energy that spirals into and out of the Time Matrix from the Central Source. Describe this flow in relation to the Particum and PartikA universes.**

- Particum particles draw energy in and PartikA particles (or anti-particles) project energy out. Thus, the Particum universe draws energy out of the Time Matrix and back into the Central Source; it is contracting, *spiraling IN*, and moving back to Source on its evolutionary path. The PartikA universe projects energy into the Time Matrix from the Central Source; it is expanding, *spiraling OUT*, and you could look at it like the process of being "born."

**4. What exists at the center of all suns in the universe that allows an exchange of energy between Particum and PartikA universes?**

- Natural black holes. It is important to note that not all black holes are naturally occurring, and this topic is covered in detail in later workshops.

**5. What is the consequence to the Central Source and ourselves, as a result of our projection out into dimensionalization and our subsequent evolution back into Yunasai, or Central Source?**

- As we evolve and undergo our experiential realities within the dimensional matrices, we actually add to the "data banks" of the Central Source. You could look at it as if we expand God and God expands us.

**6. When our body dies, what happens to us?**

- We are eternal beings and we will always be eternal, even though we will change form. After our body dies, it will go back into the substance of the Unified Field to be reassembled and used for other evolutionary purposes, but our consciousness will continue on its evolutionary journey back to the Central Source.

**7. What has been the effect of losing touch with the structure of the Cosmos, such as we have?**

- We have lost touch with our history, and our purpose here as beings. There IS an order and a purpose to the Cosmos and ourselves within it.

**8. Where are the Morphogenetic patterns held for dimensions 1 through 7?**

- Dimensions 15 through 9. The Morphogenetic pattern (MP) for dimension 1 is held in dimension 15. The MP for dimension 2 is held in dimension 14. The MP for dimension 3 is held in dimension 13, and so forth.

**9. What is the relationship between our Auric Field and our double?**

- Our Auric Field is the Morphogenetic Field of our double. Conversely, our Morphogenetic Field is the Auric Field of our double. What this means in practical terms is that when we activate the 9<sup>th</sup> dimension here, for example, we bring in the 7<sup>th</sup> dimensional frequencies of our double. Activating the 10<sup>th</sup> dimensional field here brings in the 6<sup>th</sup> dimensional frequencies of our double, etc. This process helps break down the dimensional barriers within our own Auric Field.

**10. As we transmute the Particum particles by bringing in the frequencies from our PartikA double, what does it mean to say we are starting at the outer levels and working our way down? How does this relate to the Seal inside each Chakra?**

- Our Auric Field begins to change. The particles oscillate faster, at a higher frequency. And after we bring in all the frequencies before the seal in a particular dimension, whatever dimension we're up to, we hit that seal, and the seal opens, and in doing so it opens the Auric Field to the next dimensional level. So if we're working with the 7<sup>th</sup> Chakra, the crown Chakra, in this process, the Seal would open up the 7<sup>th</sup> dimension to the 6<sup>th</sup>. In this way we are working our way down, starting at the outer levels, bringing in the Morphogenetic Field, and gradually opening up the outer dimensional levels to the inner ones. Hence when we get to the 3<sup>rd</sup> Seal, in the last 3 dimensions (pertaining to Density 1, dimensions 1, 2 and 3) we are bringing in an Identity so huge, with so much frequency, you cannot hold it in a physical body. It transmutes the physical body completely out of manifestation.

**11. Explain how probable selves come into being, and what they are.**

- Our probable selves are not our doubles. They do look like us, but both we and our doubles have probable selves. They have the same body pattern and the same identity, but they have developed along different lines. They emerged out of our

free will choices. Basically, as Souls we decided there were certain things we wanted to accomplish in a cycle of incarnations. But as each of those incarnations have free will, which can completely ignore the Soul level purposes, we can go off on tangents. And every time it does that, it takes the quantity of energy that the soul assigned for that incarnate, and it breaks that energy down and fragments it. In terms of Keylons, the Soul gave each incarnate a certain set of Keylons, and the incarnate's purpose really is to build more Keylons into those, which expands the Soul and creates the evolutionary process. But sometimes when we're not in line with our Soul, and we make choices not fully understanding our purpose for being here, we create probable versions of ourselves. And they literally become people just like we are.

## **12. What is the Heroic Probability?**

- The path of evolution originally set out by the Soul before it entered incarnation. A person who chooses to follow its Heroic Probability gives its free will choice back to itself as a Soul.

# **Vocabulary**

## **1. Energy Matrix:**

When you evolve out of the 15-Dimensional Matrix through the Metagalactic Core, you enter spirals of energy and consciousness called the Energy Matrix. It doesn't have time in any form. Rather, it is a level of cognition and energy awareness. The Geomantic Entities or Ultra-Terrestrials reside there.

## **2. Geomantic Entity:**

Conscious entities that reside in the Energy Matrix. They are composed of extremely complicated geometrical formations of Partiki patterns. They are a level of awareness that we originally came out of and we will go back into as we evolve.

## **3. Morphogenetic Field:**

This is an energy field that comes first and holds the pattern for forms, particles or things that will be built on particles. Every particle has a Morphogenetic Field (MF) and every Particum particle that we are composed of has a MF that is the original Partiki that it came out of.

## **4. Partiki:**

A Partiki is an electro-tonal unit of energy identity that comes out of the Central Source, enters the 15-Dimensional Matrix and then polarizes into a Particum (particle) and PartikA (anti-particle). The original Partiki pattern represents the Morphogenetic Field for the Particum and PartikA.

### **5. Time Matrix:**

The six 15-Dimensional Matrices within the cosmic structure [each 15-Dimensional Matrix has its 2 counter-rotating universes] is collectively known as the Time Matrix. It is where dimensionalized reality, perception of time and individuation of consciousness takes place.

### **6. Yunasai:**

Guardian Angelic Nations often refer to the Central Source of Creation as the **Yunasai** (pronounced “You’-na-sigh”), which means “**Central Point of All Union**” and “**Eternal Consciousness of the One-All.**” All reality itself emerges from, and exists within, a **Central Source of Creation** that is commonly referenced to as Spirit, Source or God.

## **Attitudes & Responsibilities of Mastery**

### **Attitude of Mastery #5**

**RESPONSIBILITY** — Co-Creating with, Serving and being able to Respond to the ALL-ONE-ness.

### **Responsibility of Mastery #5**

**SELF-LOVE:** It is our own responsibility to love and nurture ourselves through the limitless gift of Divine Spirit that moves through us at every moment. Genuine love must come from within and can only be gained through genuine spiritual connection to the eternal God-self and its inherent connection to all creation. If we seek love "on the outside" in order to fulfill a personal loneliness or lack within, we enter relationships as "energy vampires." In doing this, we are seeking a substitute for our personal God-Source connection through tapping into the God-Source embodied within other people or beings. This is not "LOVE." It is "NEED." This implies the "LACK" of something essential, which in turn implies a limited personal connection to God-Source Universal Consciousness. Such lack cannot be filled by external "love." It can only be filled by recognizing the God within you, and thus recognizing that you are a living embodiment of absolute love. Once this is recognized, you will HAVE the greatest love of all, God Love. And from this Position of Divine Power, you can go into the world seeking those to whom you can give this love, rather than seeking those from whom you can "get" love. When love is approached through Self Love, the motivation is to give joyfully, knowing that anything you might need can be made manifest through the Love of the active God Source that you carry inside yourself. Self Love is a responsibility of spiritual maturity.
