Questions and Answers

- 1. What is accomplished in the meditation/projection journey “Sowing the Vision Seed for Co-evolutionary Peace?”**
 - First, participants serve in an ambassadorial role by anchoring a Host Matrix for those who were deceived into Metatronics. Second, a vision seed is sown for freedom, peaceful separation and safe passage as we move through the process of resetting the 12 Reuche Pillars.
- 2. Why was the Host Matrix anchored at Arc Gate 2?**
 - Because that is the easiest point of entry, frequency-wise, for the races that have compromised shield templates.
- 3. With whom are the Melchizedek races on the planet associated?**
 - There are Melchizedeks of the Cloister and those of the Metatron, and no in-between. Those of the Metatron are birthing the Magentas; those of the Cloister are rebirthing the Indigos, the rainbow people.
- 4. In the meditation, what did the Magenta sphere contain?**
 - All the beings throughout the 15-dimensional Time Matrix and its Parallel who have been misinformed/hijacked into the Metatronic system.
- 5. What happens to the beings returned from the Magenta fold?**
 - As the “Crimson Crest” falls away and is replaced by a replica of the Addondraea frequencies, forming a crystalline “skin,” the Magenta Flame can no longer burn; therefore, the Metatronic Merkaba can no longer activate. They are then able to plug into the Golden Fleece buffer field to be protected from what would have been their destiny.
- 6. Why was the Psonn of Khemalohatea referred to as an activation song?**
 - Even though the song is in English, it activates the language patterns in one’s own native language to bring those frequencies in. If English is not one’s native language, it is recommended that one translate the psonn into one’s native language.
